3D-GOLD Jewellery Obtains Fruitful results in Several Design Competitions

3D-GOLD Jewellery, the self-initiated retail brand of Hang Fung Gold Technology Group, announced that it has successively achieved a total of 25 awards in “Chuk Kam Jewellery Design Competition 2008”, “The 9th Hong Kong Jewellery Design Competition”, “Tahitian Pearl Trophy Asia 2007” and “Buyers’ Favorite Jewelry Design Competition 2007”. The encouraging results testified to 3D-GOLD Jewellery’s dedication in promoting innovative jewellery designs. The fruitful results also proved the diversification of its jewellery development.

Ms. Ng Yee Mei, CEO of the group, said, “We are so honoured of achieving so many awards in several design competitions. We have been relentlessly grooming talents for the jewellery industry, which is essential in pushing forward the industry and local jewellery brands in the international market. In future, 3D-GOLD Jewellery will continue to support and contribute to the growth of the local jewellery industry by bringing more innovative and unique jewellery products and promoting the designers for the industry.”
